Our Ref: **AC-001**

Dear Sir

**Subject: Recommendation for approval of Quidos Ltd | AIRS v1.2 A/C Inspection class software**

Quidos Ltd submitted AIRS (v1.2) on 8<sup>th</sup> May 2009 for the validation under the A/C Inspection class software.

The scope of validation at the current time is focused on compliance of generated reports with CLG's reference report templates. An extended degree of consultation has gone into making sure that the software generated reports are within satisfactory agreement with the report templates. Where discrepancies arise, Quidos has been working closely to our recommendations to address them and we are satisfied with the cooperation demonstrated.

We therefore recommend that CLG approve Quidos Ltd | AIRS (v1.2) as fit for commercial use in its current state and form as an A/C Inspection software, for the relevant scope described above.

Yours sincerely,

Simon Law
