29 July 2009

Dear Mr Salaman,

I refer to Quidos Ltd AIRS v1.2 Air Conditioning Inspection class software which was submitted for validation under Air Conditioning Inspection class software. The scope of the validation at the current time has focused on compliance of generated reports with the Communities and Local Government (CLG) reference report templates.

Having considered the information provided by you, and having had the software tested by AECOM (formerly Faber Maunsell), as set out in their letter attached, I am satisfied that the software generated reports are within satisfactory agreement of the report templates.

I am authorised by the Secretary of State to confirm that Quidos Ltd AIRS v1.2 Air Conditioning Inspection class software has been approved, for compliance of generated reports with the CLG reference report templates, as fit for commercial use in its current state and form as an Air Conditioning Inspection class software.

This approval only relates to Quidos Ltd AIRS v1.2 Air Conditioning Inspection class software in its current state and any later variant or version will need to be submitted separately for approval. A formal publication of the approval will be made in due course.

A copy of AECOM approval letter is attached for ease of reference.

Yours sincerely,

A handwritten signature in black ink, appearing to read "Andy De Lord", with a long horizontal flourish extending to the right.

**ANDY DE LORD**

Enclosed: AECOM letter dated 07 July 2009
